

# What Can We Do For You?

We have successfully worked in partnership with many commercial operations and believe that our expertise and working practices are what have made these partnerships successful.

Added to this, we understand planning policies and procedures, allowing us to ensure that any work we undertake is compliant with all legislation.

## Contact

Are you a developer? Have you infrastructure requirements? Would you like to work in partnership with a road services organisation that can help you realise your objectives quickly and cost-effectively?

# Road Services

## Our Services

Our Roads Services operation has experience of both **large and small**-scale projects. We have **140** staff, **5** operational depots and a whole range of equipment suitable for any project.

**we are the **only** local authority service in the UK who operates commercial contracts with **three** of the main utility operations.**

Not only do we carry out the construction of roads for new developments and general infrastructure improvements, but we also carry out commercial contracts with public utilities for reinstatement of roads and trunk road maintenance. Moreover we have our own street lighting installation and maintenance team.

We work in partnership with national organisations and a number of wind farm project teams to provide a quality first class service.

We were a regular finalist in the Association of Public Service Excellence Awards.

**Local Depots**

We have five operational depots in the Dumfries & Galloway area

**18 Tonne Lorry**

Our fleet has 12 18 tonne Lorries within its ranks

**Elevated Platform**

4 Elevated Platform Vehicles

**Vehicle Fleet**

5 7.5 tonne vehicles and 11 3.5 tonne vehicles

**Turnover**

Our Road Services have an annual turnover of over £20, 000, 000

**Local Jobs**

Our Road Services provide jobs to over 140 local workers in the Dumfries and Galloway area.

**Achilles Accreditation**

**ISO Accreditation**
