

Education and Learning Directorate

School / ELC Improvement Progress Reporting and Planning Return to Education and Learning

(2022 - 2023)

School: Rephad Primary School and Nursery

Date: June 2022

1. Vision, Values and Aims

An essential element in the improvement process is a shared and agreed vision and set of values. These need to be dynamic, reviewed and referred to continuously. The Vision, Values and Aims statement should indicate the school's stance in empowering the school community and partners, and in ensuring excellence and equity for all learners.

Refer to HGIOS?4 / HGIOELC?: Leadership and Management - QI 1.3 Leadership of Change – Theme 1: Developing a shared vision, values and aims relevant to the school and its community; Learning Provision - QI 2.2 Curriculum – Theme 1: Rationale and design; Successes and Achievements - QI 3.1 Ensuring Wellbeing, Equality and Inclusion - Theme 1: Wellbeing & Theme 3: Inclusion & Equality; Successes and Achievements - QI 3.2 Raising Attainment and Achievement - Theme 4: Equity for All Learners

Our Vision, Values and Aims

School Statement

Our Vision:

At Rephad Primary School and Nursery we aspire to develop every child to “be the best they can be” by providing high quality learning and teaching throughout a broad and relevant curriculum. We believe the development of the whole child to be vital.

Our Values:

We are **respectful** and **inclusive**. We promote **resilience, hard-work** and **creativity**. We have an **aspirational** learning environment.

Our Aims:

- Develop all learners' potential to the full by assisting them to overcome barriers, develop resilience and have high aspirations
- Ensure all children are included and celebrated and staff are proactive in supporting and differentiating for children as required.
- Fully engage learners, parents, staff and other appropriate agencies in the learning process from nursery through transition to secondary school
- To embed key priorities into our daily learning experiences including focussing on National and Local government agenda's such as GIRFEC, UNCRC, National Improvement Framework and D&G Development Skills Priorities
- To promote forums for children, staff and parents to share their views and to move the school forward
- Equip all learners with the skills required to take a full and active place in society
- Develop creative, interactive and meaningful experiences for children in and out of the classroom
- Recruit, retain and develop well-qualified and committed staff.

Review Date: February 2021

Review Activities: **Through a variety of surveys and discussions with children, staff and parent/carers we verified our vision was relevant, we developed values that were personal to ourselves and we created associated effective aims to meet our shared goals. We anticipate a review in the 2024/2025 session.**

2. School Improvement Progress Report

Include evaluative statement/s on the impact of Covid-19 on priorities.

Looking inwards, looking outwards: What key outcomes have we achieved? What are our strengths and areas for improvement? What is our capacity for continuous improvement?

In completing this section, it may be useful to refer to the statements of impact within the Level 5 Illustration for relevant HGIOS? 4 / HGIOELC? Quality Indicators, National Improvement Framework (NIF) 5 key priorities, the 6 NIF drivers and the National Standard (ELC Only)

2.1 Progress against Previous Year's School Improvement Priorities

throughout the school with key aspects for children to focus on would help consistency of practice.

Through the original training in Term 2 and a moderation meeting across the cluster it was agreed within the school that the description bubbles would be focused upon and teachers were encouraged to use the writing frameworks.

Cluster Feedback

Colleagues within the cluster met for a moderation session to discuss the descriptive bubbles and how it has impacted children's writing after the initial series of training. Some feedback from the session included the following comments:

Some reported that children found the resource engaging and helped them with idea generation when writing description. The descriptive bubbles have proved an effective support for children in writing. They provide a framework to base a piece of writing around and can be used and applied across a range of text types.

Very good, whole school approach. It is easy to follow and accessible to all children. Children who are not ready for writing can talk about descriptions eg. Give me a number sentence etc.

Use of bubble to help structure and give ideas when asked to "add description". Some children don't know what you mean when you ask them to add description and this gives children a clear structure with a range of ideas.

Pupil feedback

During pupil discussions linked with HGIOURS the majority of children have stated that they enjoy writing now.

All children within the discussions were able to state the purpose of the Descriptive Bubbles and the elements and how to develop ideas about them. Children have stated:

P1: Describing bubbles are in stories and they tell you and help.

P2: We use texture for fluffly or hard, it helps you tell about something, it makes better sentences. It helps so you know what you are doing.

P3: Descriptive bubbles help us and we can share the ideas on the board so you don't have to think of everything by yourself.

Our writing is better because we have more sentences and details and

we are writing more than we did.

P4 Descriptive bubbles have 8 words and then you say things with that bubble and you had more ideas to your writing and it helps pop ideas back into your head. We like using them.

P5: The bubbles help us write better and I can go back to them in the middle of my writing and add other ideas to make my writing better. If you are stuck about what to write the bubble give you clues when you are stuck and each thing can be a sentence or two or even a paragraph.

I used to hate writing and now I want to write at home because it is easier. You can get stories done.

I am proud of my story writing because I can use the bubbles to help me add ideas to my story.

P6: Before the bubbles we didn't know what our characters would look like or describe them and now we have far more detail in our writing. The bubble is helpful as we can focus on detail. It makes us better writers.

The bubble is easier we have something to help us give us ideas.

P7: Bubbles have helped with thinking about different ideas, we use more describing words, it is more detailed.

We talk about our writing and then think about how to share our ideas, we get to choose what we write about.

You write more of a quantity. Layout is better.

Reader wants to read your work as description is better and it is interesting.

Enjoyable to read other people's work.

Positive views about writing will inspire better writers. Children were keen to share their work and have also enjoyed having their work recognised on the school's Tickled Pink board.

Staff feedback

All teachers have noted that they have seen a higher level of engagement with children during lessons. They are eager to share information and have taken on the concept of descriptive bubbles and are using it willingly in other pieces of writing.

Parent feedback

Due to continued COVID restrictions, parents were only able to see selected pieces of work and not the full jotter. Parents who responded to a survey stated:

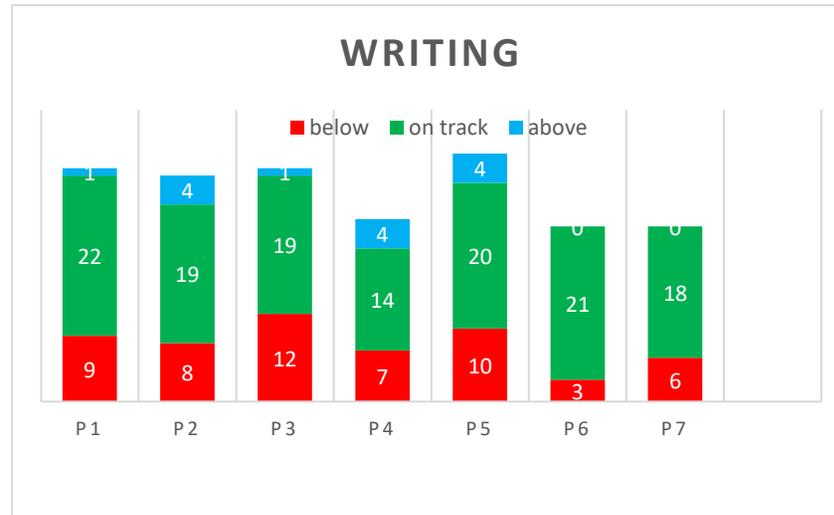

My child has said they are showing enjoyment in writing.

The bubbles are encouraging children to take time to think about what they are writing.

They can express themselves and develop their imagination.

As we continue to have restrictions lifted we will have more flexibility in sharing information with parents and allowing them to see first hand the progress their child is making. Further information will continue to be shared with families as the process develops.

Writing June 2022

| % of pupils May 2022 | 72 | 80 | 71 | 88 | 76 | 74 | | |
| | <p>We have had improvements in writing and this is noted through samples gathered from children. All children have demonstrated an improvement in their writing skills. Though some children are still below level, they have improved in their overall skills within writing and can produce more competent pieces of work using the success criteria set for their needs.</p> <p>We continue to develop writing criteria to allow for consistent judgement of developmental progress. This will be a priority in the new session as we have further input on the last text genres.</p> <p>Some staff are using the Scope and Sequence criteria to assess writing and considering how this fits with the CfE levels at their stages. A continuum of progress would be most effective.</p> | | | | | | | |
| <p>School Priority 2 Developing Play Pedagogy/Active Learning across the school</p> <p>NIF Priority -Improvement in attainment, particularly in literacy and numeracy -Closing the attainment gap between the most and least disadvantaged children and young people</p> <p>NIF Driver -Performance Information -School Improvement -Assessment of Children's Progress</p> <p>HGIOS?4 / HGIOELC Qis <i>QI 3.2 Raising Attainment and</i></p> | <p>All teaching staff and LAs have participated in CLPL sessions throughout the school session. These were a blend of authority led school led experiences. Opportunities were regularly taken with collegiate meetings and support staff meetings to discuss progress and set next steps.</p> <p>P1 and P2 staff were involved with Deirdre Grogan training linked with a cluster school. They discussed aspects of retrospective planning, setting provocations and balancing child-led play-based activities and teacher led curriculum development. Successes have involved children having opportunities to develop their ability to compromise and work with peers. Due to the needs of identified children within the room a great deal of adult input was required to facilitate successful engagement for these pupils</p> <p>P3 and P4 staff participated in Inquiry Model training with Deridre Grogan. The premise was to build on play pedagogy skills of children and introduce models to offer further pupil choice in taking their learning forward through platforms such as Wonder Walls. Staff engaged with specific theory around the process but felt due to significant amount of lockdown and trying to focus on developing literacy and numeracy skills, the children still needed time to build on the Inquiry</p> | | | | | | | <p>Across the school, staff have agreed to continue the process of engaging in play-based learning and involving children in decision making as possible within their learning environment</p> <p>New staff will be joining the school and they will have opportunities to learn about the processes and implement them within their own classes.</p> <p>Pupil voice will also be supported through the priority of UNCRC and embedded into planning frameworks Considerations for timetabling to allow</p> |

| | | |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><i>Achievement -</i></p> | <p>process and allow the teacher to support what could be a wide variety of special interests across the children and ensure adequate resources and supports were available to meet the criteria of the suggested model. Pupils in the relevant classes had multiple opportunities for choice within class through activities such as Successful Six and Smart Start and have opportunities for personal research and Sharing Time. Staff will continue to be encouraged to consider how choice and Inquiry becomes a regular part of the retrospective planning in the class.</p> <p>LA training was taken forward during the February inset. This was very theory based according to feedback and staff still felt that further opportunities to learn how to use deep questioning and share observations etc with teachers would be beneficial. This will happen prior to the end of this term and be implemented for the new session as relevant to the LAs role. The lack of opportunity for teachers and LAs to speak frequently is an impactor for sharing information and moving forward skills and process with children. LAs have weekly support meetings with HT/DHT and are involved in termly Learning Consultations with ASLT and CT but we continue to derive a timetable format to balance all the responsibilities as well as meet the wider needs of the school and support staff breaks.</p> <p>P5-P7 teachers had successes with CLPL linked to Pupil Engagement and Empowerment. A pre audit in term 1 considered the following elements: How do we represent pupil choice?? How do we represent Play in class? How can we record skills and skills development? And from the information gathered next steps included:</p> <ul style="list-style-type: none"> • a need to develop independence and initiative with groups of children • Ensuring children have a purpose to their choice and choices have a skills development-based purpose • Developing a digital “floor Book” style of recording pupil voice across the class and sharing evidence regularly of developments of learning and skills. • Continue reading journals etc linked to engagement • Complete the Learner participation survey formulated by Educational Scotland <p>The readings were set and discussions occurred in follow up meetings through the session allowed staff to share views, ideas and make considerations for their planning The Participation Survey was instrumental in helping us identify strengths “to a large degree” such as:</p> | <p>more frequent sharing between LA and CT.</p> <p>Continue to Develop empowerment agenda based on Education Scotland advice and in conjunction with the UNCRC work for the new session.</p> |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| | <ul style="list-style-type: none"> • Having a culture that values the views of children • Having an awareness of the rights of the child • Promoting and developing participation across the school and • Having learner participation linked to our SIP <p>Growth Areas “to some degree” involved:</p> <ul style="list-style-type: none"> • Wider discussions about the 4 arenas of four arenas of formal curriculum; wider curriculum; decision making groups, wider community) • Continuing to engage in research around empowerment • Staff felt a Willingness to try different things; being flexible to change in approaches and to widen experiences. To share ideas and experiences. • Considering how to assess this as it can be very subjective with anecdotal views <p>All senior staff felt the venture was positive and did make them consider how further choice was offered in class and how children became more involved in the planning process.</p> <p>The learnings will continue on as staff continue to work together in a wider team for planning and focusing on skills-based learning with the children</p> <p>With all 3 models staff were given opportunities to share successes, questions, concerns and discuss next steps through time allocated through the WTA. This was very beneficial as it also allowed staff to see how learning was different at various stages but also how the continuum of development was important. Skills in Primary 7 only occur with a baseline in earlier stages.</p> <p>Monitoring progress meetings have involved discussions with staff and pupils about how play/empowerment has been taken forward.</p> <p>Staff have adapted in various ways to meet needs of pupils at different stages and children recognise they have a voice and a choice within their classroom environment. As work begins with UNCRC needs we will further focus on how these important elements become embedded in our practice and ethos</p> | |
| <p>2.1.1 Report on the impact of PEF <i>(Not required for ELC if PEF has not been used for children in the nursery.)</i></p> <ul style="list-style-type: none"> • Comment specifically on how PEF is making a difference / closing the attainment gap for identified cohorts of children / young people? | <p><i>(Include evaluative statements about how PEF has been used flexibly to meet needs of children / young people / families.)</i></p> <p>Throughout the year we have focused on FME pupils during ASLT consultations and termly tracking meetings. All staff have access to information regarding pupils in their class to ensure they are aware of a wide variety of criteria linked with pupils. LAs have access to this information as well and achievements grids for the whole school are shared for comparison and understanding of our position.</p> | |

PEF funds were directed to funding and EYSA, two part time LAs and to purchase training for staff linked to CNG, CLG, Fastlane etc. Every staff member had the opportunity to attend one of the authority led training sessions and this has allowed teaching staff to feel more confident in discussing the types of interventions their pupils could benefit from as well as considering how quality strategies could be supported across a class. This has been positive from all staff and confidence is noted in being able to identify the right intervention at the most opportune time.

Due to the needs of two specific children in Primary 1, PEF allocations were redistributed for a significant amount of the year to ensure the safety and wellbeing of the two children, the pupils in their class, staff and the wider school community. Training was given to all staff linked with the children for TEAMTEACH and the Inclusion Team were also highly involved in the school to support staff, the parents involved and the identified children.

A nurture room was created term 3 to support the children and again the manning of this meant PEF funded staff were redirected to ensure safety and wellbeing. These interventions have had positive impacts on the two children and the wider class in general but the development of some specific Literacy and Numeracy targets was delayed due to readiness of children.

Sharing of information from wider supports within the authority has been more of a priority this session to help ensure we have a thorough understanding of children and the supports that may be available to meet individual needs.

Resources purchased based on the feedback back of children in various groups have been well-received. Literary resources to engage demotivated learner, non-fiction materials to motivate children to read for enjoyment and maths resources to support development of CNG based skills have all been effective.

Due to the time to engage some staff hired for PEF posts we have also been able to purchase 3 i-pads which will also support learner development through apps suggested as supporting the needs of learners. These will also be effective in allowing infants to engage more successful with SNSA assessments at early level.

2.2 Summary of Key Strengths and Areas for Improvement

(What is our capacity for continuous improvement?) In giving an evaluation against the HGIOS? 4 /HGIOELC? six-point scale (Column 4), consideration should be given to impact of COVID-19 on the school's strengths and areas for improvement.

Refer to HGIOS? 4 / HGIOELC? Quality Indicators relevant to your school's context in making comment.

| Quality Indicator | How well are you doing? What's working well for your learners? <i>(Include evidence of impact.)</i> | Areas for Improvement | Evaluation of this QI using the HGIOS?4 six-point scale |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------|
| <p>1.3 Leadership of Change</p> <ul style="list-style-type: none"> • <i>Developing a shared vision, values and aims relevant to the school and its community</i> • <i>Strategic planning for continuous improvement</i> • <i>Implementing improvement and change.</i> | <p>All staff continued the process of embedding the new VVA and making them an integral part of the school ethos as well as developing the new school rationale with wider staff and the school community through formal and informal discussions with pupils and parents.</p> <p>Digital and in-person assemblies allowed us to share common messages and promote and recognise positive achievements</p> <p>All staff were involved in the various priority developments and had time for discussions in frequent WTA teaching staff meetings and weekly LA support meetings</p> <p>Through collegiate sessions all staff continued the opportunities to learn from others based on school based development</p> <p>All staff have been involved in self evaluation to inform changes required and embed process into a more regular practice</p> <p>Representative pupils from each class and pupil focus groups have also shared views and used HGIOURS prompts to gather feedback and views on the developments within school</p> <p>Senior leaders in the school meet regularly and discuss SIP targets and consider</p> | <p>Embed further opportunities to share growth and ideas</p> <p>Embed termly opportunities of LAs to attend teaching staff meetings and give time back as it meets the need of school</p> <p>Continue to find ways to gather self evaluation evidence against the HMIE QIs to ensure it is timely and responsive</p> <p>Involve wider staff in wider leadership opportunities as pressures of COVID are lifting</p> <p>Continue to consider effective ways to gather information from parent/carers as engagement in surveys is limited.</p> | <p>4</p> |

2.2 Summary of Key Strengths and Areas for Improvement
(What is our capacity for continuous improvement?) In giving an evaluation against the HGIOS? 4 /HGIOELC? six-point scale (Column 4), consideration should be given to impact of COVID-19 on the school's strengths and areas for improvement.

Refer to HGIOS? 4 /HGIOELC? Quality Indicators relevant to your school's context in making comment.

| Quality Indicator | How well are you doing? What's working well for your learners? <i>(Include evidence of impact.)</i> | Areas for Improvement | Evaluation of this QI using the HGIOS?4 six-point scale |

| <p>3.2 Raising attainment and achievement</p> <ul style="list-style-type: none"> • <i>Attainment in literacy and numeracy</i> • <i>Attainment over time</i> • <i>Overall quality of learners' achievement</i> • <i>Equity for all learners</i> <p>3.2 Securing children's progress (for Early Learning Childcare)</p> <ul style="list-style-type: none"> • <i>Progress in communication, early language, mathematics, health and wellbeing</i> • <i>Children's progress over time</i> • <i>Overall quality of children's achievement</i> • <i>Ensuring equity for all children</i> | <p>All teaching staff engaged with cluster colleagues to work collegiately across setting and give opportunities to share and evaluate experiences</p> <p>All children have specific targets withing their learning for Literacy, Numeracy and HWB that are shared with families.</p> <p>All teaching staff participated in monitoring discussions and information from next steps and feedback was shared wider to support whole school development.</p> <p>Pupils wider achievements were shared within class and across the schools through displays, digital and in person assemblies.</p> <p>All senior teaching staff took forward the opportunity to support raising attainment was across level planning. This was most particularly successful in Second level with the P5 to P7 teachers due to the skills, abilities and needs of the children. Planning discussions with staff ensured there was a series of skills being developed commonly and differentiation took place as needed. Staff shared their ideas for taking learning forward with a follow on benefit of planning for the new session as teachers will be aware of activities and expectations children had in the previous session to help make links to</p> | <p>Going forward to use prediction information to specifically track pace of growth within the 4 stages of progress and not just on track and below accomplishments.</p> <p>To share with all staff the predication timetable and use that as part of monitoring discussions for the new session To use prediction information to track pace of development To use prediction information to differentiate children who can close the gap more significantly with their peers and those who will continue to have a gap due to specified developmental needs.</p> <p>To continue to track PEF specific pupils to ensure progress and attainment and account for interventions as required</p> <p>To adapt overall tracking document to account for Stages of Intervention and not just ASN assisted pupils</p> <p>To continue to support staff in meeting needs of children through in-school and authority wide training</p> <p>To use train trainer model to share strategies and practice</p> <p>Arrange more training opportunities to build</p> | 4 |

prior learning.

All staff involved in this planning have stated they found this positive for themselves and for the children. Being able to discuss Es and Os, benchmarks and success criteria has developed further camaraderie and removed a sense of isolation that single stream class teachers can feel when trying to meet all areas of the curriculum.

Tracking results across stages show a need across the current P3 stage. This has been monitored throughout the year and pupils have been linked to specific in-class and LA supported strategies and interventions to continue to develop skills. These children have been impacted by two significant school lockdowns as well as having a high degree of noted diagnosed and RFA noted needs.

Needs across the school are tracked according to various identifying features within SEEMIS to note any trends and highlight specific areas/stages of need.

confidence in using the DNK assessments successfully to plan for learning.

Continue process of embedding values and expectations with pupils, staff and families to ensure a heightened sense of pride in our achievements.

To develop opportunities for infant staff to have wider cross level discussions to build on sharing of progression and cross stage planning

To continue to focus on current P3 age group to ensure strategies and supports in place continue to be promoted with the children.

To further involve families in the development of targets as restrictions lift and allow for more parent/teacher/child contact.

Overall, girls are achieving higher than boys but in individual areas boys are far more adept than stage related girls. Again,

discussions occur to identify the specific children, their need and their capacity for pace of progress and development.

Predictions and

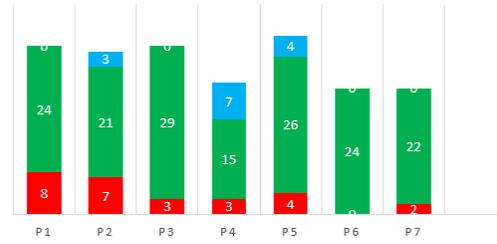

Having an understanding of the delay for children and not just a below target designation helps us consider interventions and the pace that progress can be made. Discussions take place in termly monitoring meetings.

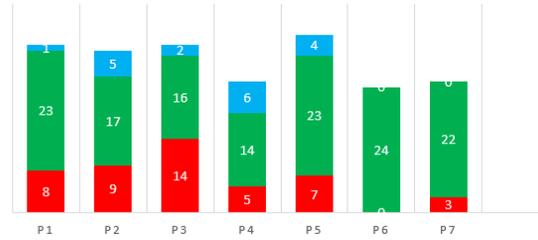

LISTENING AND TALKING

| <p>2.7 Partnerships – Theme 3: Impact on Learners</p> <p>The impact of parental involvement on improving children and young people’s learning.</p> | <p>The school Continued the process of embedding vision, values and motto into our communication and work with families for consistency within and out with the school environment..</p> <p>An engagement calendar to balance social, fundraising and reporting events for parent/carers has been created and will be monitored termly and fit for purpose</p> <p>Some face-to-face partnerships within the community were reestablished but these were into term 3 and term 4.</p> <p>On-line Learning Journals allowed for sharing with families but they were time consuming and limited the amount of detail that could be shared due to the uploading pace, especially for larger classes.</p> | <ul style="list-style-type: none"> • Reintroduce Drop-in sessions for parent/carers to meet needs of children and view work in class • Continue to reestablish links to the wider community. • Continue to gather information from parents to understand their views and how they can be involved and included in their child’s educational journey. |

BE THE BEST THAT YOU CAN BE

3. SCHOOL IMPROVEMENT PLAN 2022 – 2023 *(Limit the number of priorities to ensure they are manageable and achievable.)*

Clearly identify within your School Improvement Plan where you are using Pupil Equity Funding to improve outcomes for learners.

The 'Planned Management of Improvement Area' (Column 4) should indicate lead person/s, resources, time allocations; for example, collegiate sessions. Consideration should be given to how bureaucracy will be reduced and workload managed with the school's 35-hrs Working Time Agreement.

| Improvement Area | How are you using pupil equity funding to improve outcomes for learners? | | |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | Outcomes for Learners / School Community | Key Tasks | Planned Management of Improvement Area (Include: Responsible/Lead Person, Time Allocations, Funding – including PEF and Expected Completion Date.) |
