I can help young people in my local area get the support they need when dealing with personal issues whether it be related to school, family or something else.

I can help young people get assistance to improve their education if they need it and I wish to encourage people in my area to not be afraid to make their voices heard if they disagree with something.

I believe I would be a good youth councillor as I am respectful, polite, patient and have the determination to make sure the people of my local area are heard and taken into account when it comes to decision making in our local area.

MIA BEATTIE

I WILL...
1. Work to increase awareness & understanding of 'invisible' disabilities from mental illnesses & learning difficulties to epilepsy & asthma.
2. Campaign to widen the support network available to people suffering from drug addiction.
3. Endeavour to make D&G a community in which it is easier to make environmentally friendly choices.

It would be a pleasure for me to become a Youth Councillor because I am extremely passionate about making Dumfries and Galloway a region where young people, and all other members of the community, are able to live a healthy and happy life. If I am able to become a Youth Councillor, I will listen to the voices of young people within Dumfries and Galloway and put all my effort into making their ideas a reality.
